

STERN GALAXY INSTRUCTION CARD INSERT

Print this page (preferably with a high-quality laser printer) on heavy paper stock making sure that there is plenty of black ink to avoid streaking and uneven printing. The inserts below the card are for customizing the "Sun Special" setup. Like the original card, simply cut a vertical slit on both sides of the "Advancing Planets to Saturn..." section, cut out desired insert, and slide it into the card. Insert the entire card in the slots on the pinball machine. **Remember to set the appropriate dip-switches on the MPU board to reflect the chosen rules!**
